PROFESSIONAL SUMMARY

Fresh graduate in Information Systems with 10+ UI/UX projects across freelance work and case studies. Skilled in end-to-end design, from user research and user flows to wireframing, high-fidelity UI, prototyping, and developer handoff. Working knowledge of HTML, CSS, React, Next.js, and Tailwind CSS.

WORK EXPERIENCE

UI/UX Designer

SIDSNEAKS – Freelance, Jakarta, Indonesia **September 2026 – October 2026**

- Customized and expanded an existing UI Kit into a comprehensive admin dashboard design system (90% solo) for SIDSNEAKS, a sneaker e-commerce platform, covering design foundations (color tokens, typography, spacing) through to a composable CRUD data table system with sortable headers, filters, bulk actions, and loading/empty/error states.
- Adapted the form system and commerce-specific admin components from the base UI Kit, including order/payment/shipping status variants, product/SKU cells, and order/payment/shipment timeline patterns to support internal operations workflows.
- Customized reusable navigation, overlay, and system-state patterns (drawers, popovers, empty/error/permission-denied states) to maintain consistency, using an external CRM reference for visual density while keeping SIDSNEAKS branding authoritative.

UI/UX Designer & Treasurer

Kala Loop – Freelance, Jakarta, Indonesia **March 2026 – August 2026**

- Designed 50+ user and admin dashboard screens for Common Ground, a combat sports event management platform, covering both mobile and desktop layouts.
- Designed 10+ features across user and admin flows, translating requirements into wireframes and high-fidelity designs.
- Managed team finances by creating internal PRDs and MOUs to formalize financial processes and responsibilities.
- Tracked team fund inflows and outflows, preparing ad-hoc recaps when significant expenses or calculation discrepancies occurred.

UI/UX Designer

Heulaulabs – Freelance, Jakarta, Indonesia **February 2025 – July 2025**

- Designed 20+ screens across 4 core user flows for Levi Camp, a camp reservation platform, covering the full process from user flow mapping to wireframes, high-fidelity mockups, and interactive prototypes.
- Collaborated with a cross-functional team of 2 developers and 1 project manager to ensure designs were implemented accurately and responsively.
- Built and customized a UI Kit into 30+ reusable components, reducing screen creation and content-filling time across the product.

Graphic Designer

Yayasan Amaliah ASTRA – Internship, Jakarta, Indonesia **May 2025 – June 2025**

- Designed a mockup template used for livestock handover documentation across 50+ partner companies during the Kurban Astra 2025 event.
- Created supporting materials including delivery letters and livestock handover data recaps to ensure clear documentation across all recipients.
- Redesigned the previous year's mockup to align with updated event branding and improve visual consistency.

SELECTED PROJECTS

UI/UX Engineer

Personal Portfolio Website – Self-Initiated Project **December 2025 – March 2026**

- Designed and built a fully custom, responsive portfolio site using Next.js, Tailwind CSS, and GSAP, including custom interactive elements like animated cursor, horizontal scroll, and page transitions.

UI/UX Engineer

Fund Small Capital – Academic Project (Real Case Study) **July 2025 – December 2025**

- Designed 25+ screens across 10 user flows for 3 user roles in a web-based e-learning application, from user flow mapping to high-fidelity prototypes.
- Authored complete system documentation solo, including use case, activity (25+), sequence (20+), ERD, and class diagrams across 3 user roles, taking on end-to-end product design responsibilities from system architecture to interface design.
- Contributed to frontend implementation using Laravel and aligned table structures with the existing Entity Relationship Diagram (ERD), gaining practical exposure to MVC architecture and database schema design.

ORGANIZATIONAL EXPERIENCE

General Treasurer

Himpunan Mahasiswa D3 Sistem Informasi – UPN "Veteran" Jakarta **January 2024 – December 2024**

- Managed financial operations for 2 core programs (membership dues and organizational uniform procurement), including fund disbursement requests from 5 divisions.
- Prepared monthly and end-of-period financial reports, maintaining organized documentation to support transparent budget management.
- Coordinated with committee members across 5 divisions and 36 members to manage program expenses and support successful execution of organizational activities.

EDUCATION

Associate's Degree in Information Systems **Grade: 3.76**

Universitas Pembangunan Nasional "Veteran" Jakarta **Graduated: 2026**

SKILLS

- Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Canva, Maze, Google Analytics, Notion, Plane.
